Statement from the director of the institute on the final report of the Commission No. 7

Dear Prof. Vandamme,

we are in agreement with the revised evaluation report. We would only ask for the following corrections:

- p. 1: ...a UNESCO World Heritage **Site** (the word Site is missing).
- p. 3: There is a **potential** threat of a pull of mostly ... (not substantial).
- p. 4: Pysek was rated one of the most highly cited ecologists **in the world by ISI** (the words in bold are missing).

Yours sincerely,

Doc. RNDr. Miroslav Vosátka, CSc.

Průhonice, February 29, 2016
