

FIELD: PHYSICAL SCIENCES

INSTITUTE: Institute of Physics of the CAS, v. v. i.

TEAM: Astroparticle Physics

Report of the I. phase of the Evaluation of the research and professional activity of research-oriented institutes of the Czech Academy of Sciences for the period 2015-2019 is not available for this team.

Owing to the rules of the Evaluation restricting outputs of collective works of more than 30 authors, the team could not submit any of its research outputs in Phase I of the Evaluation. This is because all of the research outcomes of the team have been done as part of large international collaborations. The research outputs of the team are described in detail in Report on the research activity of the team.
