Statement from the Director on the Final Report

We thank all members of the commission for their work during the process of evaluation and for their appreciation of our work and results. We also thank for the suggestion to obtain additional administrative and project management support from the Czech Academy of Sciences.

(i) The statement on the process of evaluation

The process of evaluation was in our opinion in accordance with the methodology specified in evaluation documents.

(ii) The statement on the final report

We accept the final report with two minor comments that clarify misunderstandings.

D3.3 Success rate in supervision of PhD students

The Institute of Psychology has an agreement on joint education of doctoral students with two faculties of the Masaryk University (the Faculty of Arts and the Faculty of Social Studies), but not with the Charles University. An ongoing cooperation with the Faculty of Arts at Charles University is based on sharing the Laboratory of Behavioural and Linguistic Studies (LABELS). We are planning to sign additional agreements about joint education of doctoral students with faculties of the Charles University to have a better access to doctoral students in Prague in the future.

D4.3 Participation in professional organisations in the area of research and development

We mentioned examples of participation of our staff members in international organizations in the section entitled "*International cooperation and performance standards*" of our document "*Information on activity of the institute*". As a matter of fact, several staff members are active in various international organizations. We list some examples from year 2019 below:

Sylvie Graf

European Federation of Psychologists' Associations, Board of Cultural and Ethnic Diversity

Member of the Board

Term: 2017-2019

Martina Klicperová

International Union of Psychological Science: Executive Committee

Member of the Committee

Term: 2016-2020

Executive Council of the International Association for Cross-Cultural Psychology

Member of the Council

Term: 2019-2020

Filip Smolík

European Federation of Psychologists' Associations, Board of Scientific Affairs

Member of the Board

Term: 2017-2019

Tomáš Urbánek

European Federation of Psychologists' Associations, Board of Assessment

Member of the Board

Term: from 2011

prof. PhDr. Tomáš Urbánek, Ph.D.
Director
