Director

Prof. Hans-Georg Joost
Commission Chair
Commission No. 9 – Medical and health sciences

Prague, February 29, 2016

Dear Professor Joost,

I would like to thank you for the answer to our statement and to reassure you that our comments were not meant as a request for the reassessment of your Evaluation Report but as an explanation of some points.

We have truly appreciated your valuable recommendations that will be helpful for our Institute and its research teams in the near future.

Sincerely yours

Martin Bilej
