CAS–SAV (Slovakia) projects implemented in 2027–2028

Project reg. number	Project title	CAS institute	Partner institute
SAV-27-01	Innovative methods for Personalized Advanced Cancer Testing (IMPACT)	BFÚ	Institute of Chemistry, Slovak Academy of Sciences
SAV-27-05	Uncovering the origin of triploidy in tapeworms through satellitome analysis	BC	Institute of Parasitology SAS
SAV-27-08	Harmonised monitoring and interpretation of cave radon dynamics in karst systems across Central Europe	ÚSMH	Earth Science Institute, Slovak Academy of Sciences
SAV-27-09	Advanced wide-bandgap semiconductor radiation detectors	FZÚ	Institute of Electrical Engineering, Slovak Academy of Sciences
SAV-27-10	Enhancement of n-type doping in Diamond for advancing electronics	FZÚ	Institute of Experimental Physics
SAV-27-13	Magnetotelluric investigation of important tectonic structures in Slovakia and Czech Republic	GFÚ	Earth Science Institute of the SAS
SAV-27-14	Thermodynamic modelling of phase diagrams of systems with lanthanum	ÚFM	Institute of Materials Research of SAS, Slovak Academy of Sciences
SAV-27-15	Enhancing the Reliability of High-Entropy Ceramic Joints for High-Temperature Applications	ÚFM	Institute of Inorganic Chemistry SAS
